

## Lexus Offers Savings on Accessories Ideal for a Summer Staycation

9 July 2020

Overseas holidays and adventures may have been ruled out for many this summer, but Lexus is offering its customers all the right accessories for enjoying a staycation and the great outdoors while keeping their vehicle in pristine condition. Many are now available with a seasonal 20 per cent price reduction at the [online Lexus eBay store](#).

The offer, open until 31 August 2020, covers many practical items purpose-designed for different models – both the current Lexus range and selected past generation cars.

The discount can be enjoyed on bike racks, tow bars and roof rails and bars, so owners can securely carry all their leisure equipment.

Boot liners, bumper protection plates, rubber and textile floor mats and mudflaps all help protect the vehicle inside and out, whatever the summer weather.

The saving also extends to dashcams, a simple, discreet and increasingly popular means of keeping a real-time record of every journey. And to keep youngsters entertained on long trips, universal tablet holders are being offered with the discount.

All genuine Lexus accessories meet the same high quality standards as the vehicles they are designed for and are sold with a one-year one warranty. Lexus's eBay store also offers free delivery on order of more than £30.
