

## LEXUS SC430 TIMELINE

1999	October	Lexus presents a Sport Coupe Concept at the Tokyo motor show, the design study that would become the production SC430.
2001	March	The SC430 makes its European debut at the Geneva motor show.
	July/August	The SC430 arrives in UK showrooms.
2002	September	SC430's suspension is retuned and the run-flat tyres are replaced with conventional tyres.
2004	August	New monotube shock absorbers are introduced.
2005	November	The SC430 gains a new close-ratio six-speed automatic transmission with sequential gear selection. Fuel efficiency, emissions and acceleration are improved. The model also adopts adaptive headlights and LED rear light clusters.
2009		UK sales conclude.
