Vehicles with a list price including any additional options over £40,000 pay an additional £310 supplement for the first five years after the end of the first licence.

All LC variants are now type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP). From 1 September 2018 WLTP will fully replace the New European Drive Cycle (NEDC), which is the current test procedure from which fuel consumption and CO₂ figures are currently derived. Due to more realistic test conditions, the fuel consumption and CO₂ emissions measured under WLTP are in many cases higher compared to those measured under NEDC. More information can be found by visiting www.WLTPfacts.eu
