<sup>\*</sup>System torque has been calculated using values comparable to maximum torque values for an in internal combustion engine of similar output (in-house measurement). The torque characteristics of the RX 500h are equivalent to a petrol-engine-only vehicle that has a maximum 550.8Nm of torque.

These specifications are intended as a guide for media only. Customers should confirm the specification of specific models with their Lexus Centre or at www.lexus.co.uk.
